ABISHEK S

MERNSTACK DEVELOPER

Dubai | 971 556053387 | abishek.sathiyan.2002@gmail.com | Portfolio | Whatsapp

SUMMARY

Motivated and detail-oriented MERN Stack Developer with expertise in MongoDB, Express.js, React.js, and Node.js, specializing in building responsive, scalable, and user-friendly web applications. Experienced in developing REST APIs, authentication systems, state management in React, and deploying full-stack solutions. Completed hands-on projects including e-commerce platforms, admin dashboards, and file-sharing systems, showcasing strong problem-solving skills and clean code practices. Familiar with AI tools, prompt engineering, and integrating AI-driven solutions into applications to enhance user experience and functionality. Quick learner, adaptable to new technologies, and passionate about creating real-world solutions. Actively seeking opportunities in the UAE to contribute to innovative tech teams and grow as a full-stack developer.

WORK EXPERIENCE

MERN E-COMMERCE APPLICATION   November, 2025

- Developed a full-stack E-Commerce application using MERN with Firebase authentication and role-based Admin/User access.
- Built a responsive React + Tailwind UI with optimized state management for a smooth shopping experience.
- Created robust REST APIs for products, users, cart, orders, and payments with proper validation & error handling.
- Integrated Razorpay payment gateway and implemented search, sorting, filtering, and category based browsing.
- Built an advanced Admin Dashboard with analytics (MongoDB aggregation),inventory management, and scalable deployment.

MERN FILE SHARING APPLICATION   November, 2025

- Built a secure file-sharing application using MongoDB, Express.js, React.js, and Node.js.
- Implemented file upload & download functionality with unique shareable links.
- Used Multer/GridFS for efficient file storage and retrieval.
- Designed a responsive React + Tailwind UI with upload progress indicators.
- Developed REST APIs for file handling with security, size limits, and expiry logic.

MERN CAMPUS LOST AND FOUND APPLICATION (Freelance)   October, 2025

- Built a MERN-based Lost & Found portal for students to report and list items with images and details.
- Added secure authentication Firebase with role-based access for students and admins.
- Designed a responsive React + Tailwind UI with search, filters, and category-based browsing.
- Created REST APIs for item posting, matching, verification, and status updates.
- Implemented admin tools for approving items and managing reports to ensure a safe campus system.

EDUCATION

Master of Computer Applications
- Graduated: 2025

SKILLS

- MongoDB
- ExpressJS
- ReactJS
- NodeJS
- JavaScript
- Python
- Prompting
- Git & GitHub

INTERNSHIPS | CERTIFICATES

- MERN Stack Developer Intern | skillmate.ai Chennai,TamilNadu,India
- MERN Stack Developer Certification ErrorMakesClever
- AI For All – Intel & Digital India
- Namaste JS Certification — Namaste JS
- Basic Python FullStack Dev - Gurutech
